

NASA SEWP VI

Solutions for
Enterprise-
Wide
Procurement

Contract Holder

SEWP OVERVIEW

NASA SEWP VI: The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support of more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b)(1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Category or based on a suggested source.

ABOUT PRUDENTEC, LLC

PrudenTec, LLC is an SBA Mentor-Protégé Joint Venture between Prudent Technology, LLC (Protégé) and FedTec, LLC (Mentor), qualified as an Economically Disadvantaged Woman-Owned Small Business (EDWOSB). PrudenTec is a process-oriented organization operating under ISO 9001:2015 (Quality Management) and CMMI Level 3 (DEV and SVC) certified processes, with a Supply Chain Risk Management program aligned to NIST SP 800-53, 800-161, and 800-171. PrudenTec delivers end-to-end services across the systems engineering lifecycle, including enterprise architecture, requirements engineering, system design and development, testing, deployment, operations and maintenance, cybersecurity, and IT service management, supported by its Centers of Excellence and Innovation Lab. PrudenTec is a Prime Contract Holder in SEWP VI Category B (Enterprise-Wide ITC/AV Service Solutions) and Category C (Mission-Based ITC/AV Service Solutions).

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC/AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable Contract Holders to add new commercial technology and IT services to their contract daily, as requested by customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or statement of work to help@sewp.nasa.gov for a quick review and feedback.

SEWP VI contracts were awarded by scope category. PrudenTec holds awards in the two service categories below; each PrudenTec capability area maps to the technical areas of its category:

CATEGORY B

Enterprise-Wide ITC/AV Service Solutions

Contract 80TECH26D0673

- Cloud-Native Application Development
- ITSM Transformation
- Enterprise Data Analytics Services
- Cybersecurity and Threat Protection
- Enterprise Cloud Adoption Services

CATEGORY C

Mission-Based ITC/AV Service Solutions

Contract 80TECH26D0264

- Application Development
- IT Operations and Maintenance
- Network Design, Management, and Support Services
- Database Services

HOW TO OBTAIN A QUOTE FOR SERVICES

Requests for Quote (RFQ) and Requests for Information (RFI) are issued through the SEWP Quote Request Tool (QRT) at www.sewp.nasa.gov. Every request PrudenTec receives is logged in its SEWP VI request tracker and assigned to a dedicated response team of proposal managers and subject matter experts aligned to the capability area, then vetted through a structured quality review before submission through the SEWP Contract Holder Only Page (CHOP). Each quote states its validity period and PrudenTec honors any order submitted within that period. Revised quotes are provided through the SEWP "Request Updated Quote" feature. For scope discussions or help structuring a services requirement before issuing an RFQ, contact the PrudenTec SEWP Program Manager or Deputy Program Manager listed on page 1.

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract are defined by the issuing Agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP PMO does not issue DOs; these must be issued through the issuing Agency's procurement office and submitted to sewporders@sewp.nasa.gov. The SEWP PMO reviews, processes, assigns a SEWP Contract Number (SCN), and forwards the DO to PrudenTec. PrudenTec begins performance only after receiving the SCN confirmation from the SEWP PMO.

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

If modifications are made to any order, including option exercises and funding actions, these modifications must also route through the SEWP PMO.

POST-AWARD SUPPORT AND ORDER ISSUES

As the prime Contract Holder, PrudenTec is solely responsible for fulfillment of every order. The PrudenTec SEWP Program Manager is the primary point of contact and authority for the contract, overseeing task order execution, deliverable reviews, and communication with the ordering Contracting Officer and COR. Each order is assigned a Task Order Program Manager who reports to the SEWP Program Manager, coordinates kickoff and transition-in, aligns objectives with the ordering Agency, and manages scope, schedule, staffing, quality, and risk using PMBOK-based processes, with delivery teams operating under PrudenTec's ITIL-based service standards. A dedicated contracts and compliance team maintains order documentation, tracks modifications, and monitors FAR and SEWP requirements. For order discrepancies, modifications, invoicing questions, or performance concerns, contact the SEWP Program Manager or Deputy Program Manager listed on page 1.
